

I am not familiar with the requirements, stipulations, and restrictions of a satellite radio license. However, I am disappointed that the National Association of Broadcasters (NAB) is attempting to dictate what I listen to on my paid subscription to satellite radio. In addition, I am concerned that the NAB is interfering with my right to listen to whatever radio content and in whatever format that I choose.

Don't stifle competition.

Don't allow the NAB to tread on my first amendment rights

Reject NAB petition 04-160!
